Education

Sharif University of Technology

Oct. 2023 – Present

Bachelor of Science in Computer Engineering

◦ Total GPA: 19.16/20

◦ Major GPA: 19.97/20

Publications

Breaking the Exponential Barrier: The First Polynomial-Time Algorithm for the Györi–Lovász Theorem

arXiv, 2026

Mohammad T. Hajiaghayi, Mahdi JafariRaviz, Alireza Kaviani, and Soheil Mohammadkhani

Awards

International Olympiad in Informatics (IOI)

Szeged, Hungary

◦ Silver Medalist at IOI 2023

Iranian National Olympiad in Informatics

Tehran, Iran

◦ Gold medalist at the Iranian National Olympiad in Informatics 2021 and 2022

ICPC Asia Tehran Regional Contest

Tehran, Iran

◦ Gold medalist at the ICPC 2024 and 2025 Asia Tehran Regional Contest

Iranian Combinatorics Olympiad

Tehran, Iran

◦ 1st place in the 2022 Iranian Combinatorics Olympiad

Experiences

Remote Research Collaborator, University of Maryland

Jun. 2024 - Present

◦ Collaborating with Prof. Hajiaghayi on two research projects in Graph Theory and Game Theory.

Scientific Committee of Iranian National Olympiad in Informatics

Oct. 2023 - Present

- Head of the 2025 Iranian National Olympiad in Informatics Summer Camp and Team Selection Tests.
- Head of the 2026 Iranian National Olympiad in informatics Gold Camp.
- Member of the Scientific Committee, Problem author and Tester in Iranian National Olympiad in Informatics.

Teaching Assistant, Sharif University of Technology

Feb. 2025 - Present

- Discrete Structures, Prof. Abam (Spring 2025)
- Data Structures and Algorithms, Prof. Abam (Fall 2025)
- Design of Algorithms, Prof. Abam(Spring 2026)
- Game Theory, Prof. HosseinGhorban(Spring 2026)
- Discrete Structures, Prof. Zarrabizadeh (Spring 2026)

Contest Tester, International Olympiad in Informatics (IOI) 2025

Jul. 2025 - Aug. 2025

◦ Official tester for IOI 2025.

Data Structures and Algorithms Teacher

Sep. 2021 - Present

◦ Instructed at multiple schools and the IOI Iran Team Camp; guided students to achieve multiple gold medals in INOI and IOI.

Skills

Academic: Graph Theory, Game Theory, Approximation Algorithms, Complexity Theory, Linear Algebra

Technology: C/C++, Racket/Lisp, Python, Java, Linux, L^AT_EX, Git, Node js, R, X86 Assembly

Languages: Persian (Native), English (Advanced)

Projects

Shaazzz Guide 🌐 🌐

Python/Markdown

Open-source Persian guide for competitive programming, with resources and tutorials for the Olympiad of Informatics and ICPC.
